Networking, Security and Control

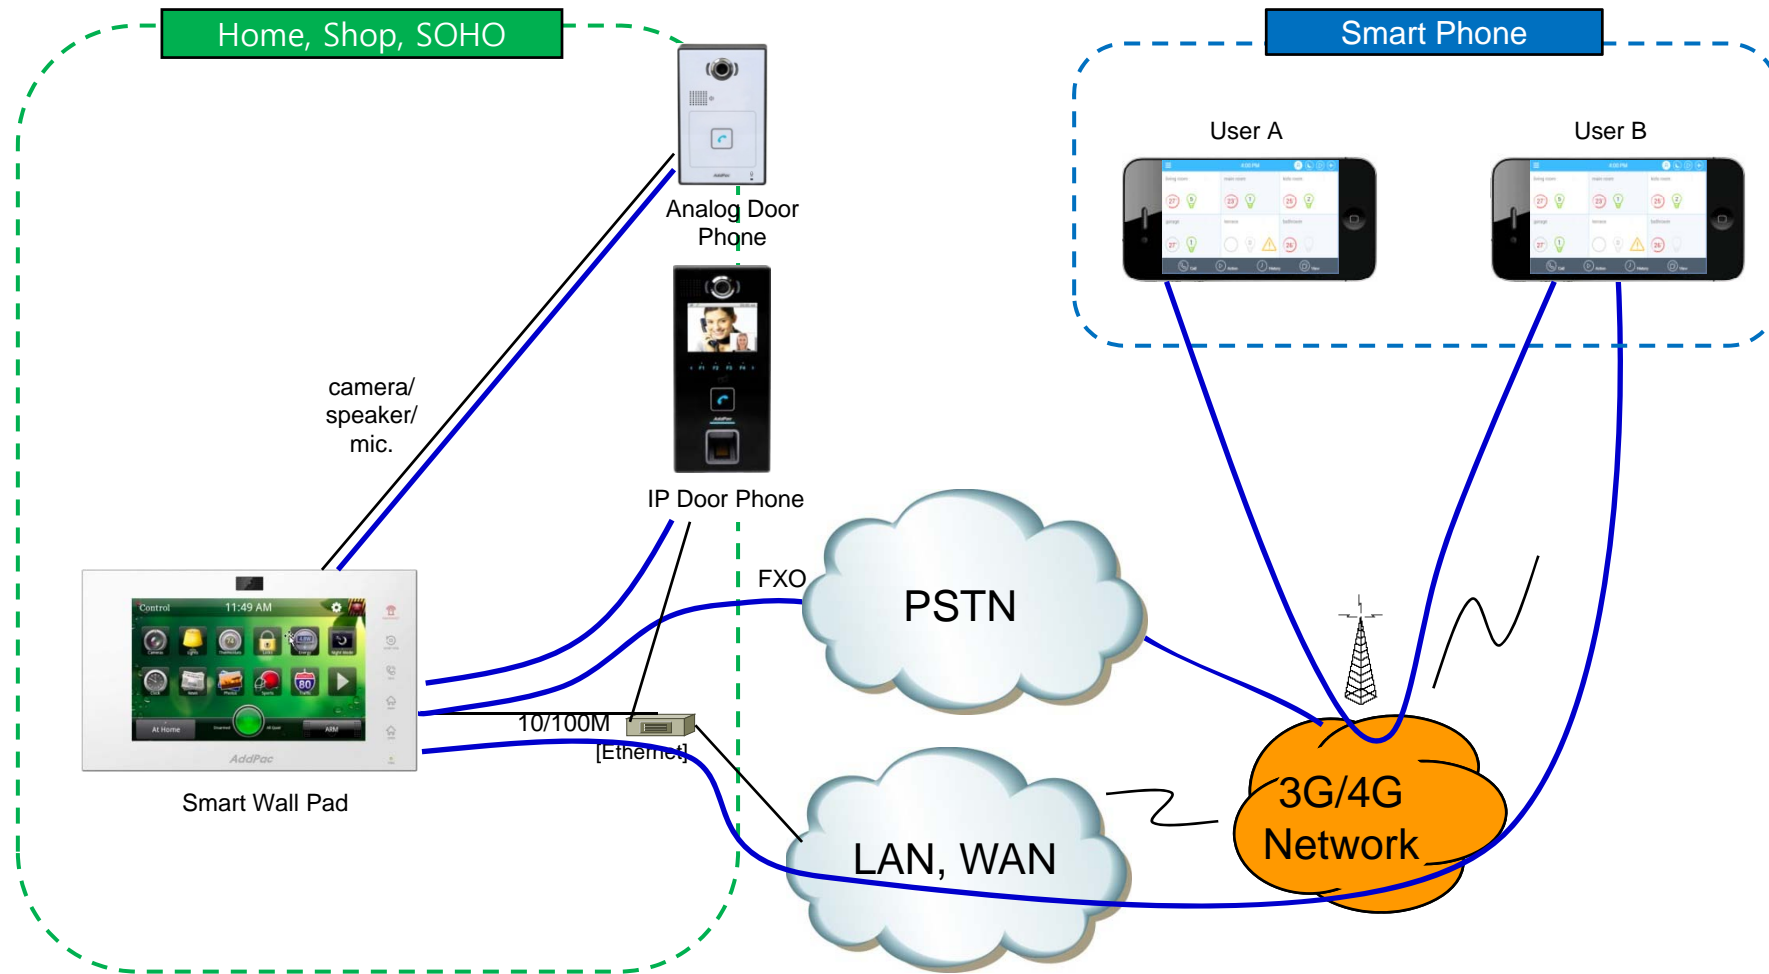

You can *monitor, control* and *multimedia networking* your *home, shop* and *SOHO* from anywhere in the world !

Networking

Networking - Smart Wall Pad

Smart Wall Pad Scenario

(Scenario 1) When a visitor calls from video door phone or door camera, the Smart Wall Pad and registered smart phones will be ringing to receive the call.

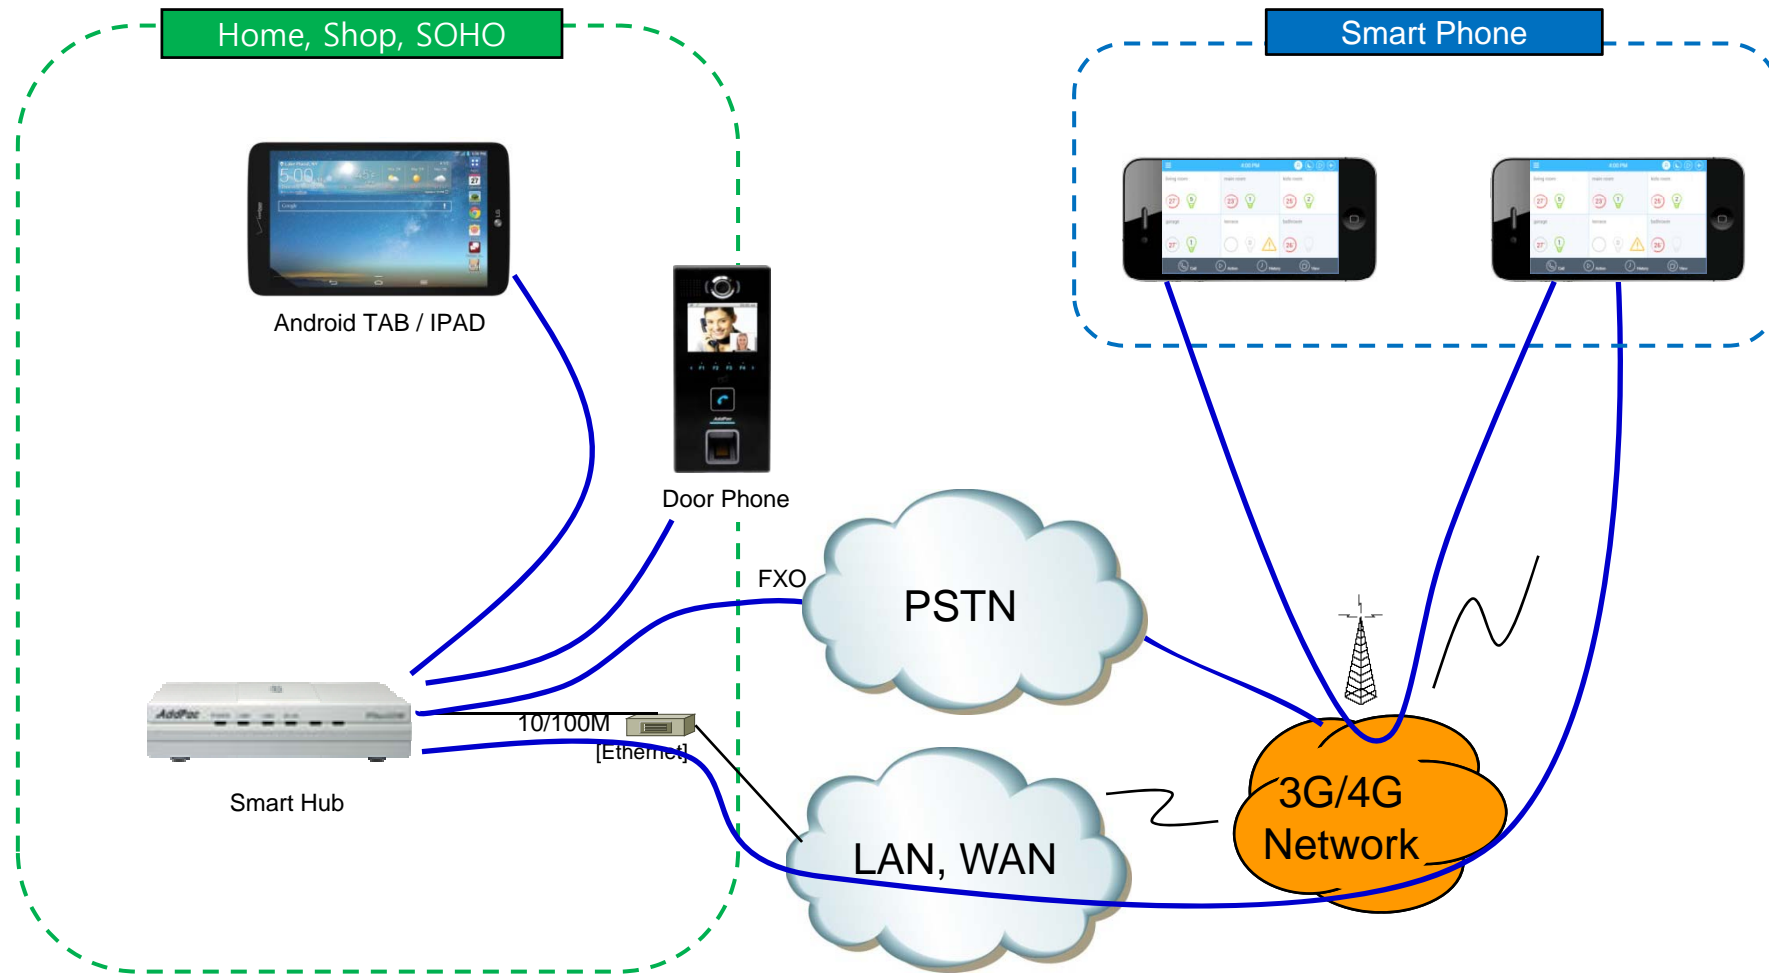

- If nobody answer the call, the video/snap shot will be recorded to the Smart Wall Pad.

(Scenario 2) When a call is received from FXO, the Smart Wall Pad and registered smart phones will be ringing to receive the call.

- If nobody answer the call, the voice will be recorded to the Smart Wall Pad.

(Scenario 3) A registered smart phone user can make a call to Smart Wall Pad, Door Phone, Door Camera and other registered smart phone user.

Networking - Smart Hub

Smart Hub Scenario

(Scenario 1) When a visitor calls from video door phone, a registered smart pad and registered smart phones will be ringing to receive the call.

- If nobody answer the call, the video/snap shot will be recorded to the Smart Hub.

(Scenario 2) When a call is received from FXO, a registered smart pad and registered smart phones will be ringing to receive the call.

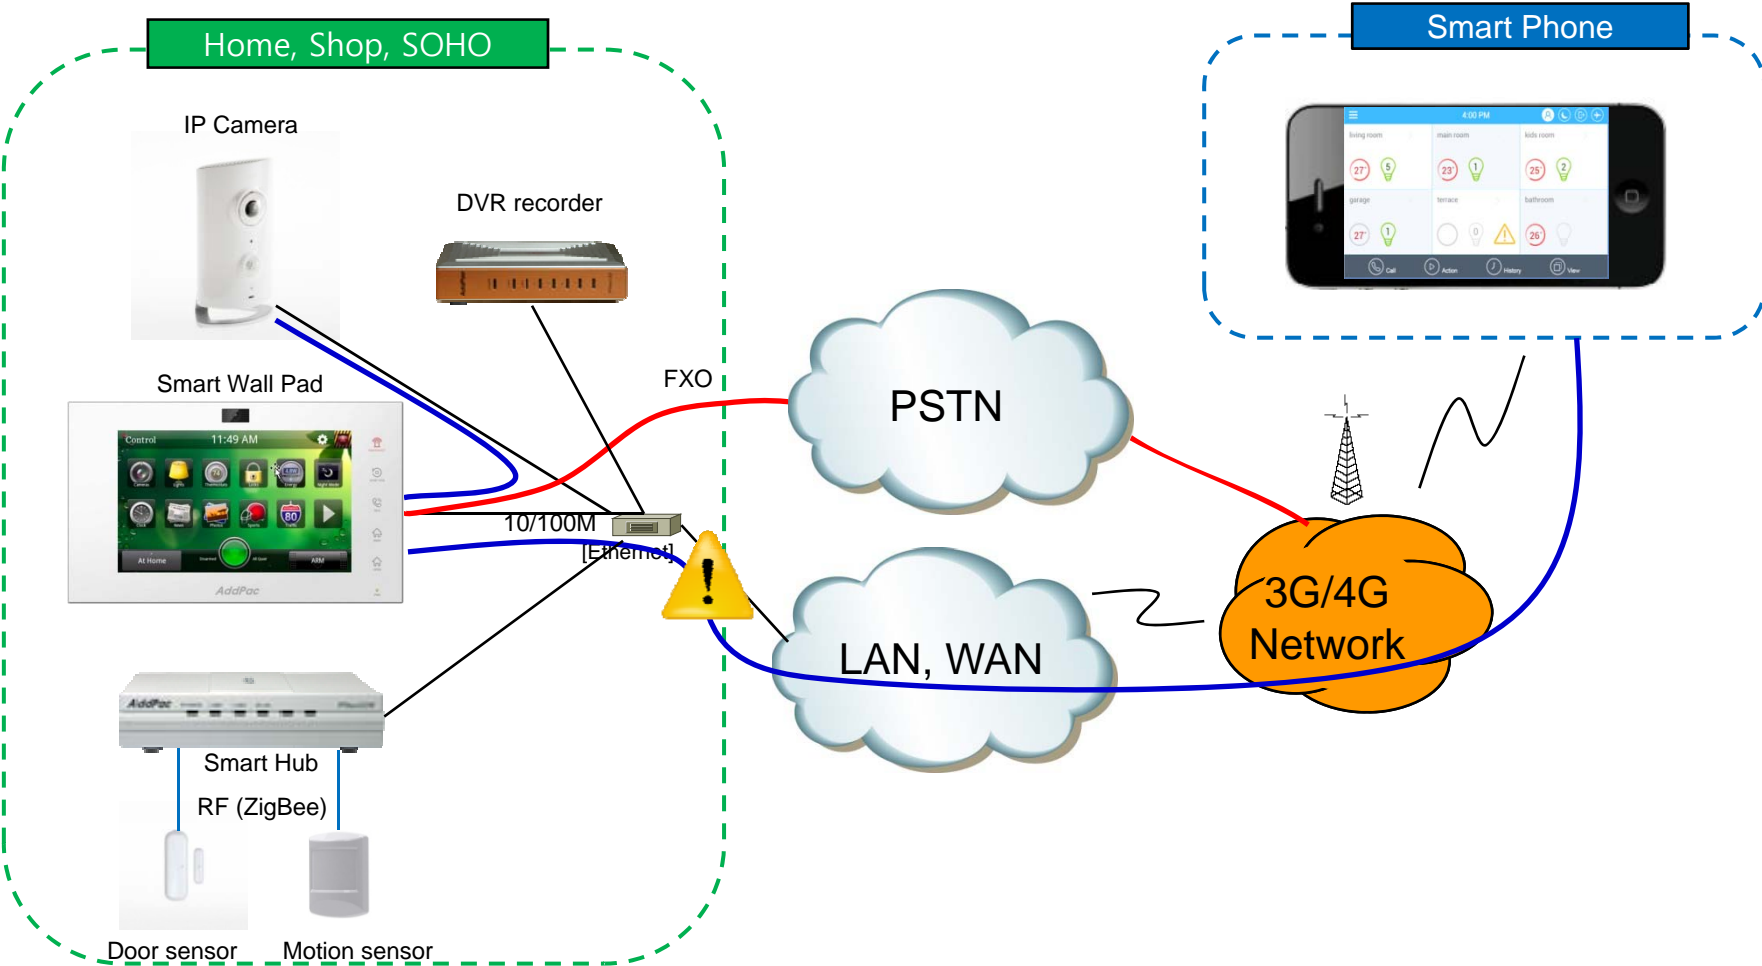

- If nobody answer the call, the voice will be recorded to the Smart Hub.

(Scenario 3) A registered smart phone user can make a call to Door Phone, registered smart pad and other registered smart phone user.

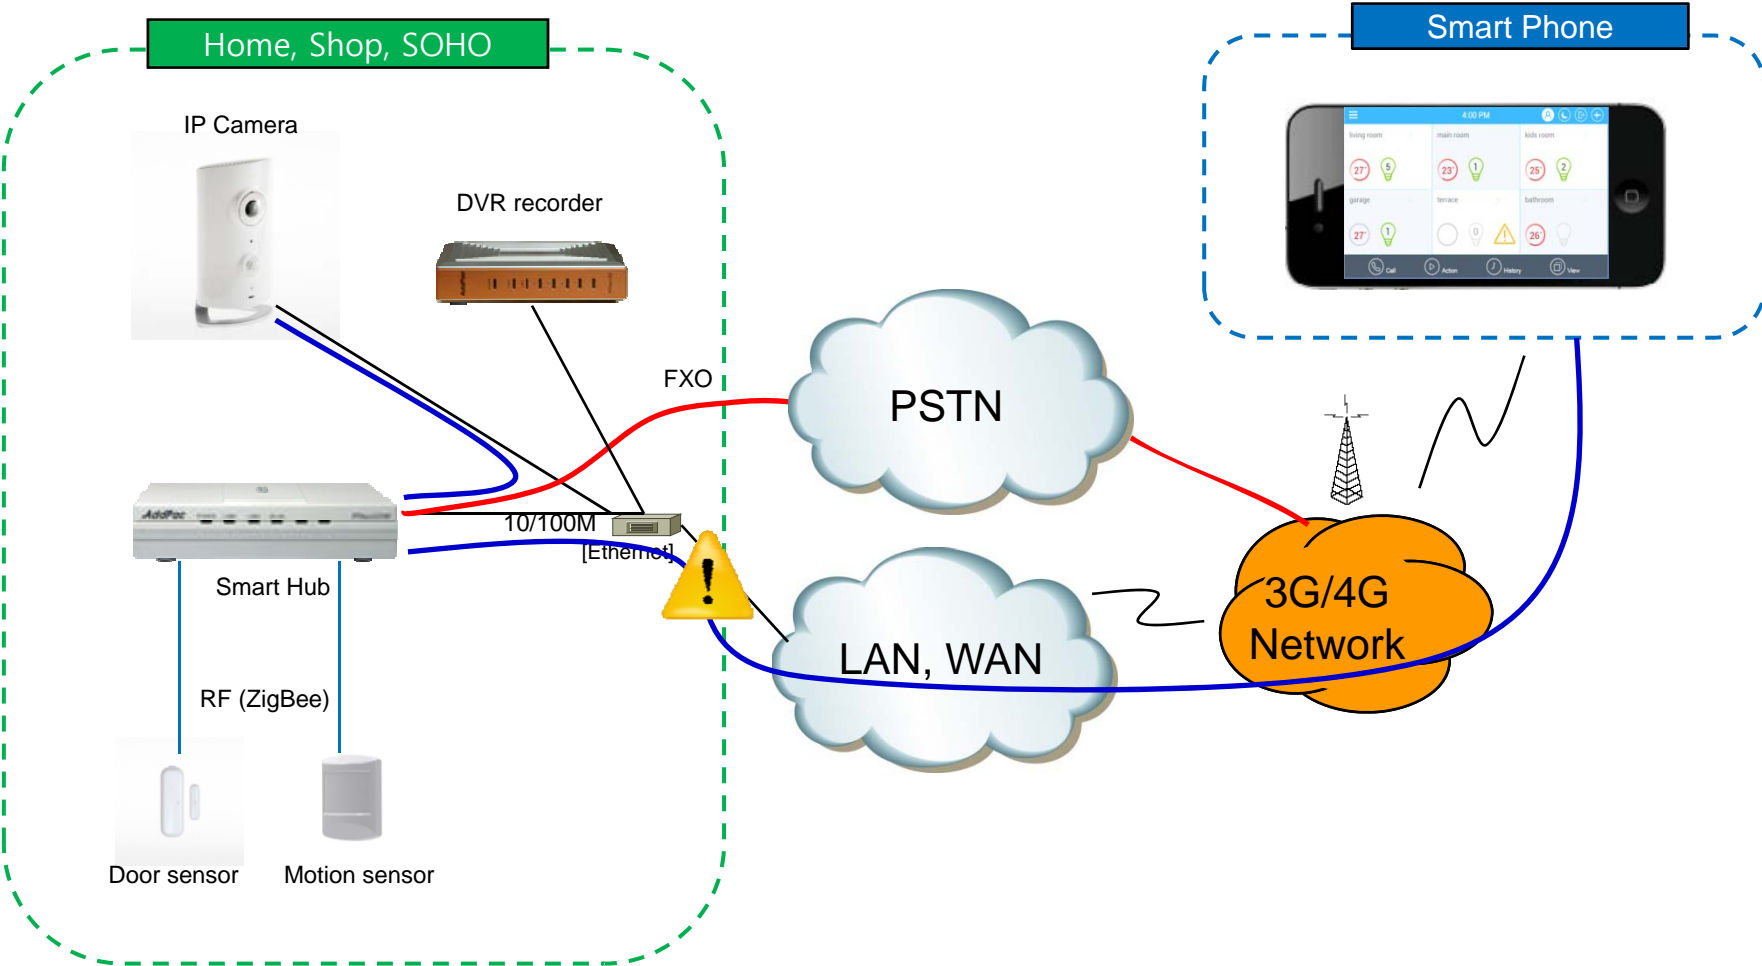

Security

Security - Smart Wall Pad / Hub

Security - Smart Hub

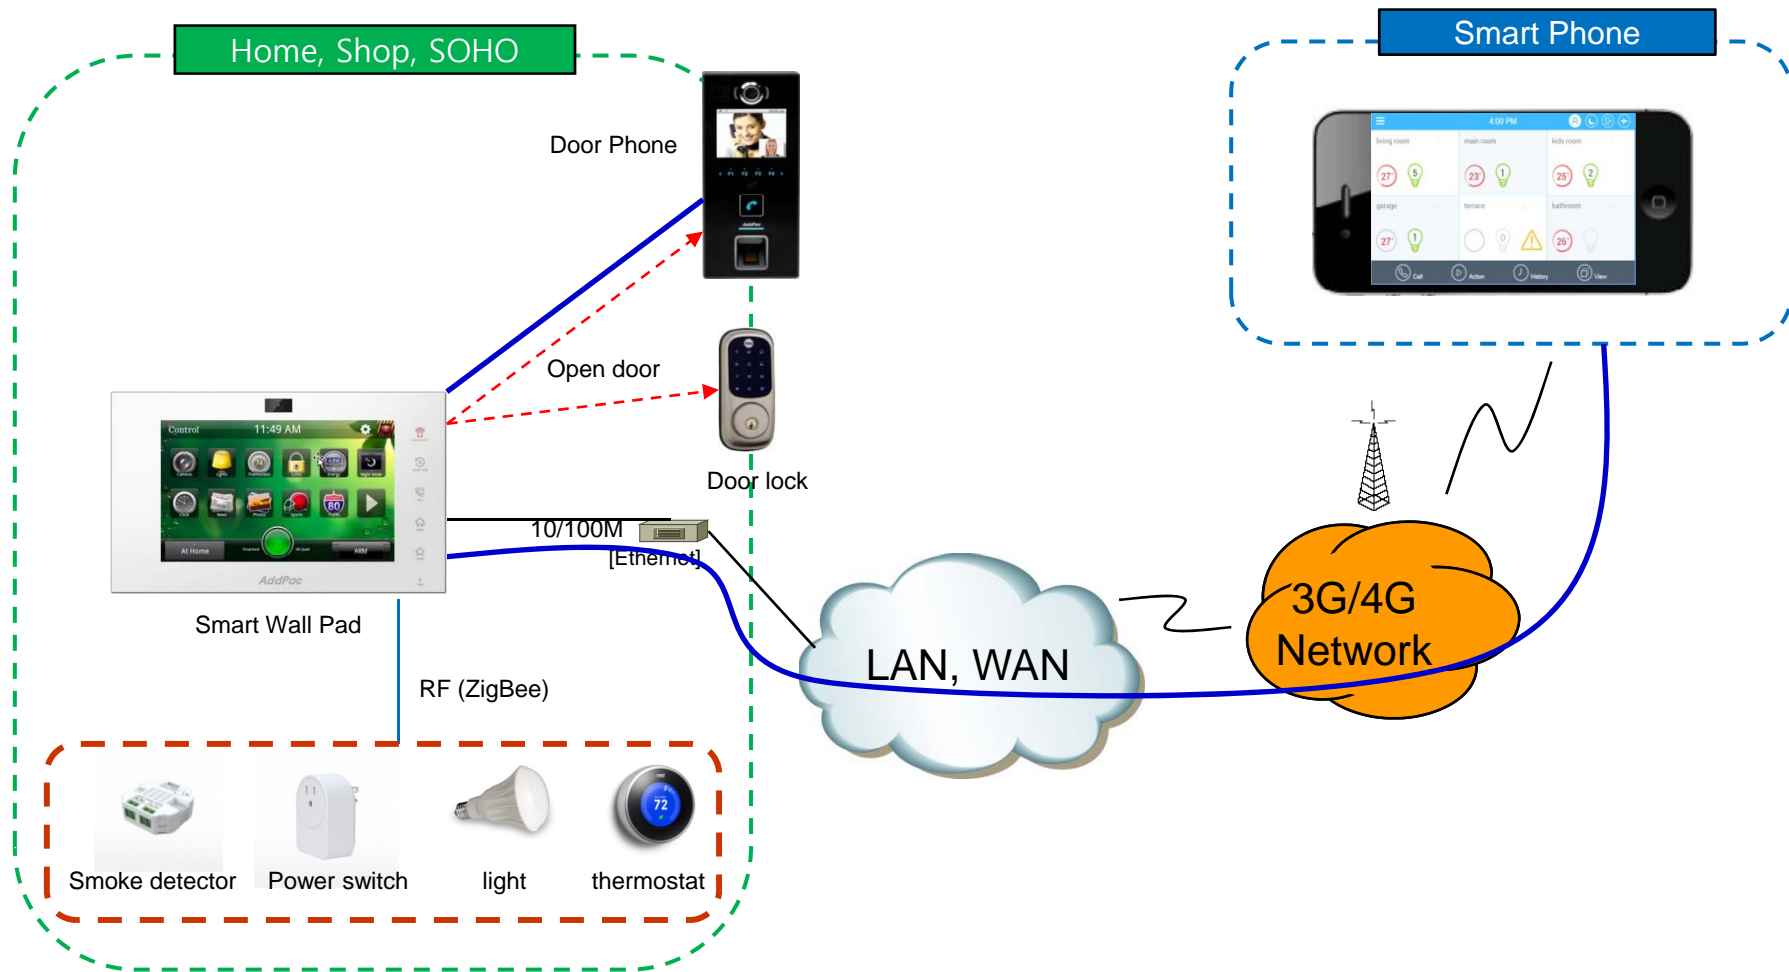

Security Scenario

- Wireless door sensor and motion sensors can be easily installed in home, shop or SOHO.
- When the security mode is set to 'AWAY Mode', intrusion detection by sensor generate alert to smart phone and make the IP camera to record it.
- The Smart Wall Pad can record video from his camera.
- A smart phone user can see live video from IP camera or Smart Wall Pad and also view recorded video of them.
- If the internet service is not available, announcement can be sent to smart phone via FXO.
- If the internet service is not available, 3G or GSM module can provide data service to Hub.

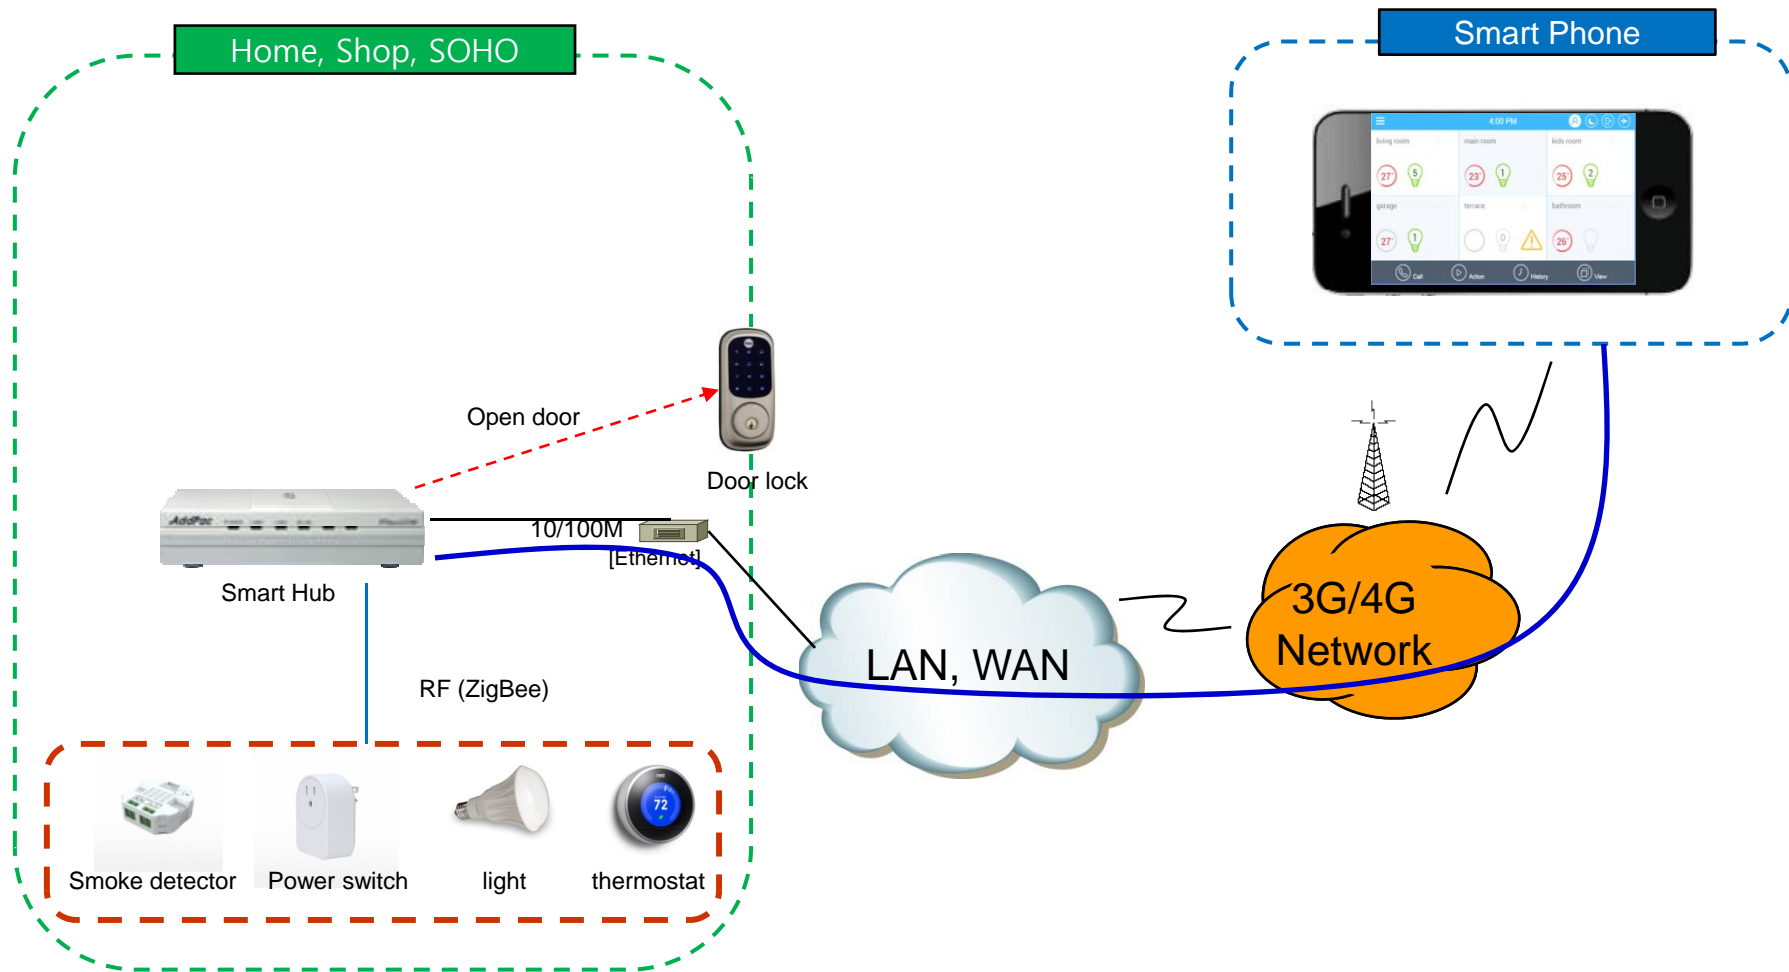

Control

Control - Smart Wall Pad

Control - Smart Hub

Scenario

- Wireless smoke detector, door lock, power switch, gas valve, and thermostat can be easily installed in home, shop or SOHO.
- The Smart Wall Pad can open door by video door phone or wireless door lock.
- The Smart Wall Pad GUI and smart phone application provides intuitive and flexible event control, schedule management, group management, zone management, and action control.
