

Personal User Portal for Web Smart Multimedia Manager (WSMM) Mobile IP-PBX Series

The screenshot shows the IPNext User Portal interface. The top navigation bar includes Home, Directory, Call History, Call Forwarding, Voice Mail, and My Profile. The main content area is titled "Welcome BongYong Jeong" and features a "Hello - I am Jeong BongYong" message, a profile picture, and a list of recent calls. Below this is a "Recent Calls" table and a "Directory" section listing various departments and users.

Call Forwarding

Apply

Mobile Extension	<input checked="" type="checkbox"/> Ring my extension and mobile phone simultaneously
Unconditional	<input checked="" type="checkbox"/> Enable Unconditional • Always, forward all calls to <input type="text" value="A Destination"/> <input type="text" value="3000"/> <input checked="" type="checkbox"/> Enable Schedule-based Forwarding click here to configure
No Reply / Not Reachable	<input checked="" type="checkbox"/> Enable No Reply • No Reply Timeout <input type="text" value="15"/> sec. • Forward no answered call to <input type="text" value="A Destination"/> <input type="text"/> <input type="checkbox"/> Enable Schedule-based Forwarding click here to configure
Busy	<input checked="" type="checkbox"/> Enable Busy • Forward incoming call when busy to <input type="text" value="A Destination"/> <input type="text"/> <input type="checkbox"/> Enable Schedule-based Forwarding click here to configure

Description

This call forwarding settings give you powerful incoming call handling for catching the call to you or forwarding the call to others.

Enabling **Mobile Extension** gives you receiving all calls to your desktop phone or mobile phone without missing it. And other call forwarding and follow me setting gives more precise call handling with certain condition and specific schedule.
